1. CORPORATE INFORMATION AND GOING CONCERN

SouthGobi Resources Ltd. is a publicly listed company incorporated in Canada with limited liability under the legislation of the Province of British Columbia and its shares are listed on the Toronto Stock Exchange (Symbol: SGQ) and Stock Exchange of Hong Kong (Symbol: 1878). The company, together with its subsidiaries (collectively referred to as the "Company"), is an integrated coal mining, development and exploration company. At September 30, 2015, Novel Sunrise Investments Limited ("Novel Sunrise"), a wholly-owned subsidiary of China Cinda (HK) Investments Management Company Limited ("Cinda"), owned approximately 29% of the outstanding Common Shares of the Company while Turquoise Hill Resources Ltd. ("Turquoise Hill") owned approximately 22% of the outstanding Common Shares of the Company. Turquoise Hill is controlled by Rio Tinto plc ("Rio Tinto").

The Company owns the following significant coal projects in Mongolia: the Ovoot Tolgoi open pit producing coal mine ("Ovoot Tolgoi Mine") and the following significant development projects, the Soumber Deposit, the Zag Suuj Deposit and the Ovoot Tolgoi Underground Deposit. These projects are located in the Umnugobi Aimag (South Gobi Province) of Mongolia, within 150 kilometers of each other and in close proximity to the Mongolia-China border. The Company owns a 100% interest in these coal projects.

The head office, principal address and registered and records office of the Company is located at 1100 - 355 Burrard Street, Vancouver, British Columbia, Canada, V6C 2G8.

Going concern assumption

Several adverse conditions and material uncertainties cast significant doubt upon the going concern assumption. The Company had limited cash of \$1,440 at September 30, 2015 and anticipates that coal prices in the People's Republic of China ("China") will remain under pressure in 2015 and early 2016, which will continue to impact the Company's margins and liquidity. Therefore, the Company is actively seeking prepaid coal offtake agreements and other additional sources of financing to continue operating and meet its business objectives, while remaining focused on minimizing uncommitted capital expenditures and preserving the Company's growth options. The Company, together with its new strategic partner and significant shareholder, Novel Sunrise, has developed and continues to execute a funding plan (the "Funding Plan") in order to pay the interest due under the China Investment Corporation ("CIC") convertible debenture (the "CIC Convertible Debenture"), meet its obligations as they fall due and achieve its business objectives in 2015 and beyond. These obligations include the remaining amounts under the tax penalty (Refer to Note 21.1 for details). However, there is no guarantee that the Company will be able to continue to implement and execute on the Funding Plan or secure other sources of financing. If it fails to do so, or is unable to secure additional capital or otherwise restructure or refinance its business in order to address its cash requirements through September 30, 2016, then the Company is unlikely to have sufficient capital resources or cash flows from mining operations in order to satisfy its ongoing obligations and future contractual commitments, including cash interest payments due on the CIC convertible debenture (approximately \$16,300 on November 19, 2015). As a result, the Company may not be able to continue as a going concern.

1. CORPORATE INFORMATION AND GOING CONCERN (CONTINUED)

The Company's consolidated financial statements have been prepared on a going concern basis which assumes that the Company will continue operating until at least September 30, 2016, and will be able to realize its assets and discharge its liabilities in the normal course of operations as they come due. However, in order to continue as a going concern, the Company must generate sufficient operating cash flows, secure additional capital or otherwise pursue a strategic restructuring, refinancing or other transaction to provide it with additional liquidity. If it fails to do so, or is unable to secure additional capital or otherwise restructure or refinance its business in order to address its cash requirements through September 30, 2016, then the Company is unlikely to have sufficient capital resources or cash flows from mining operations in order to satisfy its ongoing obligations and future contractual commitments, including cash interest payments due on the CIC convertible debenture. As a result, it may not be able to continue as a going concern.

If for any reason, the Company is unable to secure the additional sources of financing and continue as a going concern, then this could result in adjustments to the amounts and classifications of assets and liabilities in the Company's consolidated financial statements and such adjustments could be material.

While the Company intends to secure additional sources of financing as soon as possible, a continued delay in securing additional financing could ultimately result in an event of default of the CIC Convertible Debenture, which if not cured within applicable cure periods in accordance with the terms of such debenture, may result in the principal amount owing and all accrued and unpaid interest becoming immediately due and payable upon notice to the Company by CIC.

The Company is also subject to a remedial delisting review by the TSX in connection with its reliance on the financial hardship exemption from approval by its shareholders of the private placement with Novel Sunrise as announced on February 24, 2015. The TSX has advised that the Company's financial and operating results may not warrant that its securities continue to be listed on the TSX. The failure by the Company to clear the TSX delisting review may result in the delisting of the Common Shares from the TSX which may result in an event of default under the CIC convertible debenture. An event of default may result in the principal amount owing and all accrued and unpaid interest becoming immediately due and payable upon notice to the Company by CIC.

On February 25, 2015, the TSX confirmed that the Company had been placed on remedial delisting review in connection with its reliance on the financial hardship exemption from approval by its shareholders of the private placement with Novel Sunrise. A delisting review is customary practice under TSX policies when a listed company relies on the financial hardship exemption.

On October 30, 2015, following extension requests by the Company to address delays in full execution of its Funding Plan, a meeting of the TSX Committee has been deferred until November 23, 2015 to consider whether the Company has met the listing requirements of the exchange or delist the Common Shares.

2. BASIS OF PREPARATION

2.1 Statement of compliance

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standard 34 “Interim Financial Reporting” using accounting policies in compliance with the International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and Interpretations of the IFRS Interpretations Committee (“IFRIC”).

The condensed consolidated interim financial statements of the Company for the nine months ended September 30, 2015 were approved and authorized for issue by the Board of Directors of the Company on November 12, 2015.

2.2 Basis of presentation

These condensed consolidated interim financial statements have been prepared using accounting policies and methods of computation consistent with those applied in the Company’s December 31, 2014 consolidated annual financial statements, except for those accounting policies which have changed as a result of the adoption of new and revised standards and interpretations as described below. These condensed consolidated interim financial statements do not include all the information and note disclosures required by IFRS for annual financial statements and therefore should be read in conjunction with the Company’s annual consolidated financial statements for the year ended December 31, 2014.

The Company’s reporting currency and the functional currency of all of its operations is the U.S. Dollar as this is the principal currency of the economic environment in which the Company operates.

2.3 Adoption of new and revised standards and interpretations

A number of new standards and amendments to standards and interpretations are effective for annual periods beginning after January 1, 2015, and have not been applied in preparing these consolidated financial statements. None of these are expected to have a significant effect on the consolidated financial statements of the Company, except the following set out below:

IFRS 9, Financial Instruments (“IFRS 9”), addresses the classification, measurement and recognition of financial assets and financial liabilities. The complete version of IFRS 9 was issued in July 2014. It replaces the guidance in IAS 39 that relates to the classification and measurement of financial instruments. IFRS 9 retains but simplifies the mixed measurement model and establishes three primary measurement categories for financial assets: amortized cost, fair value through other comprehensive income (“OCI”) and fair value through profit or loss (“FVTPL”). There is now a new expected credit losses model that replaces the incurred loss impairment model used in IAS 39. For financial liabilities there were no changes to classification and measurement except for the recognition of changes in own credit risk in OCI, for liabilities designated as FVTPL. The standard is effective for accounting periods beginning on or after January 1, 2018. Early adoption is permitted. The Company has yet to assess the full impact of IFRS 9.

2. BASIS OF PREPARATION (CONTINUED)

IFRS 15, Revenue from Contracts with Customers (“IFRS 15”), deals with revenue recognition and establishes principles for reporting useful information to users of financial statements about the nature, timing and uncertainty of revenue and cash flows arising from an entity’s contracts with customers. Under IFRS 15, revenue is recognized when a customer obtains control of a good or service and thus has the ability to direct the use and obtain the benefits from the good or service. The standard replaces IAS 18, Revenue, and IAS 11, Construction Contracts, and related interpretations. The standard is effective for annual periods beginning on or after January 1, 2017, with early adoption permitted. In July 2015, the IASB voted to confirm the deferral of the effective date of IFRS 15 to January 1, 2018, with early adoption permitted. The formal amendment to IFRS 15, specifying the new effective date, is expected to be issued in September 2015. Management is assessing the impact, if any, on the financial statements of this new standard.

There are no other IFRSs or IFRS Interpretations Committee interpretations that are not yet effective that would be expected to have a material impact on the financial statements of the Company.

2.4 Significant accounting judgments and estimates

Information about judgments and estimates in applying accounting policies that have the most significant effect on the amounts recognized in the Company’s consolidated financial statements are included in Note 3.22 to the Company’s December 31, 2014 consolidated annual financial statements. Except for the significant accounting judgments and estimates disclosed below, the significant accounting judgments and estimates remain substantially unchanged from December 31, 2014.

Liquidity and the going concern assumption

In the determination of the Company’s ability to meet its ongoing obligations and future contractual commitments, management relies on the Company’s planning, budgeting and forecasting process to help determine the funds required to support the Company’s normal operations on an ongoing basis and its expansionary plans. The key inputs used by the Company in this process include forecasted capital deployment, results from operations, results from the exploration and development of its properties and general industry conditions.

2. BASIS OF PREPARATION (CONTINUED)

Several adverse conditions and material uncertainties cast significant doubt upon the going concern assumption. The Company had limited cash of \$1,440 at September 30, 2015 and anticipates that coal prices in China will remain under pressure in 2015 and early 2016, which will continue to impact the Company's margins and liquidity. Therefore the Company is actively seeking prepaid coal offtake agreements and other additional sources of financing to continue operating and meet its business objectives, while remaining focused on minimizing uncommitted capital expenditures and preserving the Company's growth options.

The Company, together with its new strategic partner and significant shareholder, Novel Sunrise, has developed and continues to execute on the Funding Plan in order to pay the interest due under the CIC convertible debenture, meet its obligations as they fall due and achieve its business objectives in 2015 and beyond. These obligations include the remaining amounts under the tax penalty (Refer to Note 21.1 for details). However, there is no guarantee that the Company will be able to continue to implement and execute on the Funding Plan or secure other sources of financing. If it fails to do so, or is unable to secure additional capital or otherwise restructure or refinance its business in order to address its cash requirements through September 30, 2016, then the Company is unlikely to have sufficient capital resources or cash flows from mining operations in order to satisfy its ongoing obligations and future contractual commitments, including cash interest payments due on the CIC convertible debenture (approximately \$16,300 on November 19, 2015). As a result, the Company may not be able to continue as a going concern.

The Company's consolidated financial statements have been prepared on a going concern basis which assumes that the Company will continue operating until at least September 30, 2016 and will be able to realize its assets and discharge its liabilities in the normal course of operations as they come due; however, in order to continue as a going concern, the Company must generate sufficient operating cash flows, secure additional capital or otherwise pursue a strategic restructuring, refinancing or other transaction to provide it with additional liquidity. If it fails to do so, or is unable to secure additional capital or otherwise restructure or refinance its business in order to address its cash requirements through September 30, 2016, then the Company is unlikely to have sufficient capital resources or cash flows from mining operations in order to satisfy its ongoing obligations and future contractual commitments, including cash interest payments due on the CIC convertible debenture. 2. BASIS OF PREPARATION (CONTINUED)

The Company is also subject to a remedial delisting review by the TSX in connection with its reliance on the financial hardship exemption from approval by its shareholders of the private placement with Novel Sunrise as announced on February 24, 2015. The TSX has advised that the Company's financial and operating results may not warrant that its securities continue to be listed on the TSX. The failure by the Company to clear the TSX delisting review may result in the delisting of the Common Shares from the TSX which may result in an event of default under the CIC convertible debenture. An event of default may result in the principal amount owing and all accrued and unpaid interest becoming immediately due and payable upon notice to the Company by CIC.

On February 25, 2015, the TSX confirmed that the Company had been placed on remedial delisting review in connection with its reliance on the financial hardship exemption from approval by its shareholders of the private placement with Novel Sunrise. A delisting review is customary practice under TSX policies when a listed company relies on the financial hardship exemption.

Following extension requests by the Company to address delays in full execution of its Funding Plan, a meeting of the TSX Committee has been deferred until November 23, 2015 to consider whether the Company has met the listing requirements of the exchange or delist the Common Shares.

Ovoot Tolgoi Mine cash generating unit

Unchanged from the assessment made in several prior quarters, the Company has determined that an indicator of impairment existed for its Ovoot Tolgoi Mine cash generating unit as at September 30, 2015. The impairment indicator was the continued weakness in the Company's share price during the third quarter of 2015 and the fact that the market capitalization of the Company, as at September 30, 2015, was less than the carrying value of its net assets.

Therefore, the Company conducted an impairment test whereby the carrying value of the Company's Ovoot Tolgoi Mine cash generating unit was compared to its "fair value less cost of disposal" using a discounted future cash flow valuation model. The Company's cash flow valuation model has been updated to take into consideration the latest available information to the Company, including but not limited to, sales price, sales volumes and washing assumptions, operating cost assumptions and life of mine coal production assumptions as at September 30, 2015. The Company's Ovoot Tolgoi Mine cash generating unit carrying value was \$321,600 as at September 30, 2015.

Key estimates and assumptions incorporated in the valuation model included the following:

- Long term price estimates with reference to an independent market consulting firm;
- Forecasted sales volumes in line with production levels as per the mine plan;
- Updated life-of-mine coal production, strip ratio, capital costs and operating costs;
- A post-tax discount rate of 12.9% based on an analysis of market, country and the Company specific factors; and
- Coal processing yield of 75%.

SOUTHGOBI RESOURCES LTD.

Appendix to the Consolidated Interim Financial Statements

(Unaudited)

(Expressed in thousands of U.S. Dollars and shares/units in thousands, unless otherwise indicated)

2. BASIS OF PREPARATION (CONTINUED)

Key sensitivities in the valuation model are as follows:

- For each 1% increase/(decrease) in the long term price estimates, the calculated recoverable amount of the cash generating unit increases/(decreases) by approximately \$20,100/(\$20,100);
- For each 1% increase/(decrease) in the discount rate, the calculated recoverable amount of the cash generating unit (decreases)/increases by approximately (\$23,100)/\$25,500; and
- For each 1% increase/(decrease) in the cash mining cost estimates, the calculated recoverable amount of the cash generating unit (decreases)/increases by approximately (\$12,000)/\$12,000.

The impairment analysis did not result in the identification of an impairment loss and no charge was required as at September 30, 2015. A decline of more than 1% in the long term price estimates, an increase of more than 1% in the post-tax discount rate or an increase of more than 1% in the cash mining cost estimates may trigger an impairment charge on the cash generating unit. The Company believes that the estimates and assumptions incorporated in the impairment analysis are reasonable; however, the estimates and assumptions are subject to significant uncertainties and judgments.

The Company is currently still reviewing its mine plan for the Ovoot Tolgoi project. Changes to the mine plan may have an impact on the quantities of measured and/or indicated resources and reserves of the Ovoot Tolgoi project.

Investment in RDCC LLC

The Company determined that an indicator of impairment existed for its investment in RDCC LLC as at September 30, 2015. The impairment indicator was current toll rate to be lower than the rate per the concession agreement.

Therefore, the Company conducted an impairment test whereby the carrying value of the Company's investment in RDCC LLC compared to its "fair value less cost of disposal" using a discounted future cash flow valuation model. The carrying value was \$26,900 as at September 30, 2015.

Key estimates and assumptions incorporated in the valuation model included the following:

- Toll fee estimates reference to the concession agreement and amendment to the concession agreement;
- Traffic volume;
- Repair, maintenance and operating cost; and
- A post-tax discount rate of 12.9% based on a weighted average cost of capital of the Company.

Key sensitivities in the valuation model are as follows:

- For each 1% increase/(decrease) in the toll fee estimates or traffic volume, the calculated recoverable amount of the carrying unit increases/(decreases) by approximately \$300/(\$300); and
- For each 1% increase/(decrease) in the discount rate, the calculated recoverable amount of the carrying unit (decreases)/increases by approximately (\$2,600)/\$3,000.

2. BASIS OF PREPARATION (CONTINUED)

On April 30, 2015 in response to the Road and Transportation Minister's Order no. 115 dated April 29, 2015 a working group was established to assist in the commencement of commercial operations of the paved highway from the Ovoot Tolgoi Complex to the Shivee Khuren border crossing ("Paved Highway"). Subsequently, on May 8, 2015 a three month trial period of operation in respect of the Paved Highway commenced. This trial period imposes a nine hundred (900) MNT charge per tonne of coal hauled on the Paved Highway in the Nariinsukhait-Shiveekhuren direction. This charge is lower than the fifteen hundred (1500) MNT charge per tonne stated in the signed concession agreement between RDCC LLC and the State Property Committee of Mongolia which formed the basis for the Company's investment decision. On September 17, 2015, the Invest Mongolia Agency signed an amendment to concession agreement with RDCC LLC to extend the exclusive right of ownership to 30 years.

The impairment analysis did not result in the identification of an impairment loss and no charge was required as at September 30, 2015. A decline of more than 5% in the toll fee estimates or an increase of more than 1% in the post-tax discount rate may trigger an impairment charge on investment in RDCC. The Company believes that the estimates and assumptions incorporated in the impairment analysis are reasonable; however, the estimates and assumptions are subject to significant uncertainties and judgments.

3. SEGMENTED INFORMATION

The Company's one reportable operating segment is its Mongolian Coal Division. The Company's Chief Executive Officer (chief operating decision maker) reviews the Mongolian Coal Division's discrete financial information in order to make decisions about resources to be allocated to the segment and to assess its performance. The division is principally engaged in coal mining, development and exploration in Mongolia. The Company's Corporate Division does not earn revenues and therefore does not meet the definition of an operating segment.

During the nine months ended September 30, 2015, the Mongolian Coal Division had 4 active customers with the largest customer accounting for 84% of revenues, the second and third largest customer accounting for 13% and 2% of revenue, respectively.

13. INTEREST-BEARING BORROWING

Turquoise Hill Loan Facility

On May 25, 2014, the Company announced it has obtained a \$10,000 revolving credit facility from Turquoise Hill to meet its short term working capital requirements (the "Turquoise Hill Loan Facility"). The key commercial terms of the facility were as follows:

- Original maturity date of August 30, 2014 (subsequently extended; refer below for details);
- Interest rate of one month US dollar LIBOR Rate in effect plus 11% margin per annum;
- Commitment fee of 35% of interest rate payable quarterly in arrears on undrawn principal amount of facility;
- Front end fee of \$100;
- Draws subject to customary closing conditions and the Company's cash requirements in the ordinary course of business;
- Facility is subject to certain mandatory prepayment and termination provisions; and
- The Company to continue to seek other funding alternatives.

On August 30, 2014, subject to certain conditions and limitations, Turquoise Hill agreed to grant a deferral of payment of \$3,800 plus accrued interest thereon owing by the Company under the Turquoise Hill Loan Facility and reduced the revolving credit facility to the same \$3,800. This deferral of payment and repayment was granted to the Company without prejudice to Turquoise Hill's right and ability to assert and re-assert at any point in time to demand payment and repayment of all amounts owing to Turquoise Hill under the Turquoise Hill Loan Facility.

On May 4, 2015, following the expiry of the Sale and Purchase agreement between Turquoise Hill and National United Resources Holdings Limited on April 30, 2015, Turquoise Hill agreed to a further limited deferral of repayment, subject to certain conditions and limitations, on the \$3,800 principal and accrued interest owing on the Turquoise Hill Loan Facility as follows:

- (i) \$1,900 in principal and all interest that has accrued on and under the Turquoise Hill Loan Facility up to and including August 31, 2015 shall become due and payable on August 31, 2015; and
- (ii) \$1,900 in principal and all interest that has accrued on and under the Turquoise Hill Loan Facility from September 1, 2015 up to and including November 30, 2015 shall become due and payable on November 30, 2015.

On September 2, 2015, Turquoise Hill agreed to a further limited deferral of repayment, subject to certain conditions and limitations, on the \$3,800 principal and accrued interest owing on the Turquoise Hill Loan Facility as follows:

- (i) \$1,900 in principal and all interest that has accrued on and under the Turquoise Hill Loan Facility up to and including August 31, 2015 shall become due and payable on September 11, 2015; and
- (ii) \$1,900 in principal and all interest that has accrued on and under the Turquoise Hill Loan Facility from September 11, 2015 up to and including November 30, 2015 shall become due and payable on November 30, 2015.

13. INTEREST-BEARING BORROWING (CONTINUED)

On September 11, 2015, Turquoise Hill agreed to another further limited deferral of repayment, subject to certain conditions and limitations, on the \$3,800 principal and accrued interest owing on the Turquoise Hill Loan Facility as follows:

- (i) \$1,900 in principal and all interest that has accrued on and under the Turquoise Hill Loan Facility up to and including August 31, 2015 shall become due and payable on the earlier of (A) October 9, 2015, and (B) the date on which it is announced or is decided that the Company is delisted from the TSX (such earlier of the dates referred to in the foregoing clauses (A) and (B) being referred to as the "First Limited Deferral Date"); and
- (ii) \$1,900 in principal and all interest that has accrued on and under the Turquoise Hill Loan Facility as of and from the First Limited Deferral Date up to and including November 30, 2015 shall become due and payable on November 30, 2015.

On October 27, 2015, Turquoise Hill agreed to and signed a Deferral Letter Agreement with the Company, in which Turquoise Hill agreed to a limited and circumscribed deferral of repayment of all remaining amounts and obligations now and hereafter owing under the Turquoise Hill Loan Facility to April 22, 2016 (the "Second Limited Deferral Date"). In the event that Turquoise Hill signs a definitive and binding agreement with a third party for the sales by Turquoise Hill to such party of no less than 49,100 Common Shares and completes all of the transactions thereunder by no later than November 30, 2015, then Turquoise Hill agrees that the Second Limited Deferral Date shall be deferred for a further six months to October 24, 2016. The key terms and conditions are as follows:

- The Company agreed to effect a partial repayment under the Turquoise Hill Loan Facility and a one-time deferral fee of \$200 and \$50, respectively, no later than the fifth business day following October 27, 2015, the outstanding amount under the Turquoise Hill Loan Facility shall be reduced by \$400 upon the receipt of such amount. The Company has made the repayment of \$200 and settled the one-time deferral fee of \$50 accordingly;
- Interest shall continue to accrue on all outstanding obligations but at the prevailing 12-month US dollar LIBOR rate plus 8%;
- In the event that the Company has the ability and capacity to make one or more further partial repayments between October 27, 2015 and the Second Limited Deferral Date, then Turquoise Hill agrees to accept such partial repayment up to an aggregate amount of \$1,000 and the outstanding amount under the Turquoise Hill Loan Facility shall be reduced by an amount equal to 200% of the amount so partially repaid up to a maximum aggregate reduction of \$2,000;
- In the event that the Company receives any cash proceeds upon closing of any financing or funding transactions by ways of issuance of equity or debt securities or of hybrid equity-debt securities, or any cash proceeds under and sales, offtake or other commercial agreement(s) (whether as a payment, prepayment or otherwise), then immediately following the receipt of such proceeds, the Company shall make a partial repayment to Turquoise Hill in an amount equal to 10% of the aggregate gross proceeds and the outstanding amount under the Turquoise Hill Loan Facility shall be reduced by an amount equal to 200% of the amount so repaid;
- In the event that the Company fails to strictly comply with any of the provisions set in the Deferral Letter Agreement shall result in the immediate termination and revocation of the Deferral Letter Agreement and the Company shall immediately be in default of the Turquoise Hill Loan Facility.

13. INTEREST-BEARING BORROWING (CONTINUED)

At September 30, 2015 in addition to the principal of \$3,800, the Company owed accrued interest of \$466 under this facility (December 31, 2014 the Company had drawn \$3,800 and owed accrued interest of \$145).

Interim Funding Loan Commitment

On June 17, 2015, the Company negotiated an interim loan ("Interim Loan") for up to \$8,000 from Mr. Wilson Chen (a former principal of Novel Sunrise), with immediate availability, intended to address funding obligations pending the closing of the private placements between the Company and CITIC Merchant and Swiss Life GP. In accordance with the terms of the agreement the advances will be in a minimum amount of \$2,000, with interest at LIBOR + 12% per annum, payable in cash on a quarterly basis in arrears, and maturing on June 18, 2016. The loan is unsecured and is subject to mandatory repayment upon completion of \$30,000 of equity or other debt financing.

As at September 30, 2015 the Company had not drawn down any funds under the Interim Loan. The Company has requested a funding drawdown on the Interim Loan multiple times; however, to date the funding has not been received by the Company.

14. CONVERTIBLE DEBENTURE

14.1 Key commercial terms

On November 19, 2009, the Company issued a convertible debenture to a wholly owned subsidiary of CIC for \$500,000. The convertible debenture bears interest at 8.0% per annum (6.4% payable semi-annually in cash and 1.6% payable annually in the Company's shares) and has a maximum term of 30 years. The convertible debenture is secured by a first charge over the Company's assets, including shares of its material subsidiaries. An event of default on the convertible debenture can be triggered as a result of certain encumbrances on the Company's assets (refer to Note 21.3). During 2010, the Company exercised a right within the debenture to call and convert \$250,000 of the debenture for 21,471 Common Shares. Following the conversion the outstanding principal balance was \$250,000 and has remained unchanged at that balance to September 30, 2015.

Under certain conditions, including the non-payment of interest amounts as the same become due, amounts outstanding under the CIC convertible debenture may be accelerated. Bankruptcy and insolvency events with respect to the Company or its material subsidiaries will result in an automatic acceleration of the indebtedness under the CIC convertible debenture. Subject to notice and cure periods, certain events of default under the CIC convertible debenture will result in acceleration of the indebtedness under such debenture at the option of CIC. Such other events of default include, but are not limited to, non-payment, breach of warranty, non-performance of obligations under the convertible debenture, default on other indebtedness and certain adverse judgments.

14. CONVERTIBLE DEBENTURE (CONTINUED)

The key commercial terms of the financing include:

- Interest - 8% per annum (6.4% payable semi-annually in cash and 1.6% payable annually in the Company's Common Shares, where the number of shares to be issued is calculated based on the 50-day volume-weighted average price ("VWAP"));
- Term - Maximum of 30 years;
- Security - First charge over the Company's assets, including shares of its material subsidiaries. An event of default on the convertible debenture can be triggered as a result of certain encumbrances on the Company's assets (Note 21.3). Conversion price - The conversion price is set as the lower of Cdn\$11.88 or the 50-day VWAP at the date of conversion, with a floor price of Cdn\$8.88 per share;
- CIC's conversion right - CIC has the right to convert the convertible debenture, in whole or in part, into Common Shares twelve months after the date of issue;
- Company's normal conversion right - After sixty months from the issuance date, and when the conversion price is greater than Cdn\$10.66, the Company is entitled to force conversion of the outstanding convertible debenture, in whole or in part, into Common Shares at the conversion price;
- Representation on the Company's Board - While the convertible debenture is outstanding, or while CIC has a minimum 15% direct or indirect stake in the Company, CIC has the right to nominate one director to the Company's Board of Directors. The Company currently has nine Board of Directors members of which none were elected by CIC;
- Voting restriction - CIC has agreed that it will not have any voting rights in the Company beyond 29.9% if CIC ever acquires ownership of such a shareholder stake;
- Pre-emption rights - While the convertible debenture is outstanding, or while CIC has a 15% direct or indirect stake in the Company, CIC has certain pre-emption rights on a pro-rata basis to subscribe for any new shares to be allotted and issued by the Company for the period which the convertible debenture is outstanding. The pre-emption rights will not apply to new shares issued pursuant to pro-rata public equity offerings made to all shareholders, exercise of stock options and shares issued to achieve a 25% public float;
- Right of first offer - While a portion of the convertible debenture is outstanding, or while CIC has a 15% direct or indirect stake in the Company, CIC has the right of first offer for any direct and indirect sale of Turquoise Hill's ownership stake in the Company; and
- Registration rights - CIC has registration rights under applicable Canadian provincial securities laws in connection with the Common Shares issuable upon conversion of the convertible debenture.

14.2 Debt host and embedded derivatives

The convertible debenture is presented as a liability since it contains no equity components. The convertible debenture is a hybrid instrument, containing a debt host component and three embedded derivatives - the investor's conversion option, the issuer's conversion option and the equity based interest payment provision (the 1.6% share interest payment) (the "embedded derivatives"). The debt host component is classified as other-financial-liabilities and is measured at amortized cost using the effective interest rate method and the embedded derivatives are classified as FVTPL and all changes in fair value are recorded in profit or loss. The difference between the debt host component and the principal amount of the loan outstanding is accreted to profit or loss over the expected life of the convertible debenture.

14. CONVERTIBLE DEBENTURE (CONTINUED)

The embedded derivatives were valued upon initial measurement and subsequent periods using a Monte Carlo simulation valuation model. A Monte Carlo simulation model is a valuation model that relies on random sampling and is often used when modeling systems with a large number of inputs and where there is significant uncertainty in the future value of inputs and where the movement of the inputs can be independent of each other. Some of the key inputs used by the Company in its Monte Carlo simulation include: the floor and ceiling conversion prices, the Company's Common Share price, the risk-free rate of return, expected volatility of the Company's Common Share price, forward foreign exchange rate curves (between the Cdn\$ and U.S. Dollar) and spot foreign exchange rates.

14.3 Valuation assumptions

The assumptions used in the Company's valuation models are as follows:

	As at	
	September 30, 2015	December 31, 2014
Floor conversion price	Cdn\$8.88	Cdn\$8.88
Ceiling conversion price	Cdn\$11.88	Cdn\$11.88
Common share price	Cdn\$0.31	Cdn\$0.50
Historical volatility	72%	69%
Risk free rate of return	2.09%	2.24%
Foreign exchange spot rate (Cdn\$ to U.S. Dollar)	0.75	0.86
Forward foreign exchange rate curve (Cdn\$ to U.S. Dollar)	0.75 - 0.76	0.85 - 0.86

14.4 Presentation

Based on the Company's valuation as at September 30, 2015, the fair value of the embedded derivatives decreased by \$1,977 and \$698 compared to June 30, 2015 and December 31, 2014, respectively. The change in fair value was recorded as finance expense for the three and nine months ended September 30, 2015.

For the three months ended September 30, 2015, the Company recorded interest expense of \$5,216 related to the convertible debenture as a finance cost (2014: \$5,079). For the nine months ended September 30, 2015, the Company recorded interest expense of \$15,277 related to the convertible debenture as a finance cost (2014: \$15,064). The interest expense consists of the interest at the contract rate and the accretion of the debt host component of the convertible debenture. To calculate the accretion expense, the Company uses the contract life of 30 years and an effective interest rate of 22.2%.

15. EQUITY (CONTINUED)

15.2 Accumulated deficit and dividends

At September 30, 2015, the Company has accumulated a deficit of \$924,676 (December 31, 2014: \$848,177). No dividends have been paid or declared by the Company since inception.

15.3 Mandatory convertible units

On February 24, 2015 the Company entered into a private placement with Novel Sunrise. On March 3, 2015 pursuant to the private placement agreement Novel Sunrise subscribed for an initial tranche of 10,131 mandatory convertible units for subscription proceeds of \$3,500. Each mandatory convertible unit issued to Novel Sunrise in the initial tranche is convertible on a one for one basis into a Common Share of the Company, resulting in a deemed issue price of CAD\$0.432 per Common Share.

On April 23, 2015, the mandatory convertible units were converted into 10,131 Common Shares in the company.

16. SHARE-BASED PAYMENTS

16.1 Stock option plan

The Company has a stock option plan which permits the Board of Directors of the Company to grant options to acquire Common Shares of the Company at the volume weighted average closing price for the five days preceding the date of grant. The Company is authorized to issue stock options for a maximum of 10% of the issued and outstanding Common Shares pursuant to the stock option plan. The stock option plan permits the Board of Directors of the Company to set the terms for each stock option grant; however, the general terms of stock options granted under the plan include a maximum exercise period of 5 years and a vesting period of 3 years with 33% of the grant vesting on the first anniversary of the grant, 33% vesting on the second anniversary of the grant and 34% vesting on the third anniversary of the grant.

For the nine months ended September 30, 2015, the Company granted 539 stock options (2014: 1,924) to officers, employees, directors and other eligible persons at exercise prices of Cdn\$0.92 (2014: exercise price ranging from Cdn\$0.58 to Cdn\$0.84) and expiry date of April 1, 2020 (2014: expiry dates ranging from January 13, 2019 to August 13, 2019). The weighted average fair value of the options granted in the nine months ended September 30, 2015 was estimated at \$0.34 (Cdn\$0.43) per option at the grant date using the Black-Scholes option pricing model. (2014: \$0.22 (Cdn\$0.25))

16. SHARE-BASED PAYMENTS (CONTINUED)

The weighted average assumptions used for the Black-Scholes option pricing model were as follows:

	Nine months ended	
	September 30,	
	2015	2014
Risk free interest rate	0.69%	1.36%
Expected life	3.5 years	3.3 years
Expected volatility ⁽ⁱ⁾	65%	56%
Expected dividend per share	\$nil	\$nil

(i) Expected volatility has been calculated based on historical volatility of the Company's publicly traded shares over a period equal to the expected life of the options.

A share-based compensation expense of \$147 for the options granted in the nine months ended September 30, 2015 (2014: \$373) will be amortized over the vesting period, of which \$46 was recognized in the nine months ended September 30, 2015 (2014: \$63).

The total share-based compensation expenses for the three months ended September 30, 2015 was \$43 (2014: \$453). Share-based compensation expense of \$39 (2014: \$355) has been allocated to administration expenses, \$1 (2014: \$90) has been allocated to cost of sales and \$3 (2014: \$8) has been allocated to evaluation and exploration expenses.

The total share-based compensation expenses for the nine months ended September 30, 2015 was \$229 (2014: \$835). Share-based compensation expense of \$187 (2014: \$580) has been allocated to administration expenses, \$34 (2014: \$233) has been allocated to cost of sales and \$8 (2014: \$22) has been allocated to evaluation and exploration expenses.

16.2 Outstanding stock options

17. FAIR VALUE MEASUREMENTS

The fair value of all the financial instruments of the Company approximates their carrying value because of the demand nature or short-term maturity of these instruments.

The following table provides an analysis of the Company's financial instruments that are measured subsequent to initial recognition at fair value, grouped into Level 1 to 3 based on the degree to which the inputs used to determine the fair value are observable.

- Level 1 fair value measurements are those derived from quoted prices in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1, that are observable either directly or indirectly;
- Level 3 fair value measurements are those derived from valuation techniques that include inputs that are not based on observable market data.

At September 30, 2015, certain coal stockpile inventories were written down to their net realizable value of \$3,685 (December 31, 2014: \$1,220). The net realizable value has become the carrying value and will not be revalued. Certain assumptions used in the calculation of the net realizable value are categorized as Level 3 in the fair value hierarchy. There were no transfers between Level 1, 2 and 3 for the nine months ended September 30, 2015.

21.1 Governmental and regulatory investigations

The Company was subject to investigations by the IAAC regarding allegations of breaches of Mongolia's anti-corruption laws (the "Anti-Corruption Case"), tax evasion and money laundering (the "Tax Evasion Case"). On March 18, 2013 the Prosecutor's Office decided to split the Tax Evasion Case from the Anti-Corruption Case and on April 12, 2013, the Public Prosecutor of Capital city Prosecutor's Office issued a resolution that the jurisdiction to conduct the investigation on Tax Evasion Case was with the SIA and not the IAAC, and the Tax Evasion Case was transferred to SIA.

While the IAAC has not made any formal accusations against any current or former employee of the Company or the Company under the Anti-Corruption Case, administrative penalties were imposed on certain of the Company's Mongolian assets in connection with the investigation, including a restriction of the use of \$1,200 (the "Restricted Funds") held in bank accounts in Mongolia to spending in Mongolia. The Company has been informed that the Anti-Corruption Case has been suspended; however, it has not received formal notice that the investigation is completed and the restriction on the Restricted Funds remains in place. The Restricted Funds are included within the prepaid expenses and deposits balance in the Company's financial statements. This restriction may have a material impact on the Company's activities in light of the tax penalty (MNT 35.3 billion as declared by the tax verdict).

21. CONTINGENCIES (CONTINUED)

Investigations under the Tax Evasion Case included investigations of three of the Company's former employees (the "Former Employees"). On December 30, 2014, the Capital City Prosecutor's Office (Ulaanbaatar, Mongolia) dismissed the allegations of money laundering as not having been proven during the investigation. The Former Employees were indicted for tax evasion by the Prosecutor General on March 14, 2014. The case was sent to the First Instance Second District Criminal Court of Justice (the "District Court"). The Company was advised on May 12, 2014 that the appointed judge of the District Court concluded that the investigation of the Tax Evasion Case initiated by IAAC and continued by SIA was incomplete and ordered the case to be returned to the Prosecutor General for additional investigation. The additional investigation was subsequently completed and the case was sent to the District Court again on June 4, 2014. The trial took place on August 25 and 26, 2014. A panel of three judges appointed to the case returned the case to the Prosecutor General once again for further investigation due to insufficient evidence presented by the prosecutor.

On October 7, 2014, based on the District Court verdict, the SIA ordered a re-investigation (the "Fourth Investigation") into allegations of violations of Mongolian tax laws by the Former Employees. Following the completion of the Fourth Investigation, the Former Employees were indicted again on December 31, 2014 and were subsequently tried in the District Court. On January 30, 2015, the panel of appointed judges from the District Court found the Former Employees guilty of tax evasion and imposed sentences on the Former Employees ranging from 5 years and 6 months to 5 years and 10 months of imprisonment in the correctional facilities of strict regimen in Mongolia. The Former Employees were immediately imprisoned. The Company was informed that, following the receipt of the Tax Verdict, the Former Employees requested pardons from the President of Mongolia and waived their right of appeal. On February 26, 2015 the President of Mongolia issued a decree to pardon to the Former Employees. The Former Employees were released from imprisonment following the decree and departed Mongolia.

The Tax Verdict declared SouthGobi Sands LLC ("SGS"), the Company's wholly-owned subsidiary, to be financially liable as a "civil defendant" for a penalty (the "Tax Penalty") of MNT35.3 billion (approximately \$17,653 on September 30, 2015), the corresponding balance was provided for in the second quarter of 2015. The Company firmly rejects this conclusion.

On February 18, 2015, the Company appealed the Tax Verdict (the "Tax Verdict Appeal") on the grounds that it has prepared its financial statements, including those of SGS, in compliance with IFRS, and lodged all its tax returns in the required format under Mongolian tax law. The hearing of the Tax Penalty Appeal took place on March 25, 2015 at the 10th Appeal Court for Criminal Case of Mongolia (the "Court of Appeal") and a panel of three appointed judges decided to uphold the Tax Verdict and dismissed the Tax Verdict Appeal by the Company. It is the view of the Company that there is a lack of evidence to support both the Tax Verdict and the Appeal Verdict. The Company received the written version of the Appeal Court's verdict ("Appeal Verdict") on April 10, 2015. The Company lodged a final appeal with the Supreme Court of Mongolia on April 22, 2015. In accordance with Mongolia's criminal procedure law, SGS filed the appeal with the Supreme Court of Mongolia through the Second District Criminal Court of Justice.

21. CONTINGENCIES (CONTINUED)

On April 29, 2015 the Second District Criminal Court refused to advance SGS's appeal to the Supreme Court. Following an immediate protest by SGS, the Second District Criminal Court delivered SGS's appeal to the Supreme Court of Mongolia.

On May 20, 2015, SGS was informed that the Supreme Court had refused to hear the appeal and had returned the appeal to the Second Criminal Court of Justice. The Supreme Court based its decision on a restrictive reading of Article 342 of the Criminal Procedure Law of Mongolia which stipulates that "the defendant, person acquitted, the victim, and their respective defense counsel have the right to lodge a complaint to the Supreme Court". The Supreme Court concluded that the omission of a specific reference to a civil defendant in Article 342, in and of itself denies SGS, in such capacity, the right to lodge an appeal to the Supreme Court.

In its decision, the Supreme Court did not address other provisions of the Criminal Procedure Law and the Law on Courts of Mongolia, which provide that civil defendants have standing to appeal to the Supreme Court and that no judicial proceedings or decisions in Mongolia are outside of the scope of supervision by the Supreme Court.

On May 21, 2015, SGS sent an official letter of protest to the Presiding Justice of the Criminal Chamber of the Supreme Court (the "Presiding Justice"), challenging the decision to refuse to hear the tax case on appeal. On June 2, 2015, SGS received a formal response from the Presiding Justice, confirming the Supreme Court's refusal to hear the tax case. In the letter, the Presiding Justice reaffirmed the restrictive interpretation of Article 342 of the Criminal Procedure Law.

With the refusal by the Supreme Court to hear the case on appeal, the Tax Verdict has entered into force. The Tax Verdict is, however, not immediately payable and enforceable against SGS absent further actions prescribed by the laws of Mongolia. In particular, SGS has not received a copy of the bailiff's resolution on execution of the Tax Verdict, as required under the Law of Mongolia on Execution of Court Decisions in order for any judgment execution process to happen. However, the Company made a corresponding provision for the court case penalty of \$17,653 as at September 30, 2015 given the Tax Verdict has entered into force.

The Company continues to believe that there is a lack of evidence to support the Tax Verdict and that the Tax Verdict and the subsequent decisions of the higher courts on appeal were substantively and procedurally in error under the laws of Mongolia.

On October 6, 2015, the Company was informed by the banks (where the Restricted Funds were placed) that they have received an official request from Court Decision Implementing Agency ("CDIA") to transfer the Restricted Funds to CDIA according to the court decision. \$1,200 was transferred to CDIA from the frozen bank accounts subsequently in October and November 2015.

21. CONTINGENCIES (CONTINUED)

While the Company had various additional legal avenues available to it to continue defending itself, it has decided to and is currently seeking to resolve amicably the dispute giving rise to the Tax Verdict in a manner that is both appropriate having regard to the Company's limited financial resources and supportive of a positive environment for foreign investment in Mongolia. There can be no assurance, however, that any such resolution can be successfully negotiated by the Company either at all or on favourable terms, or that the terms of any resolution to which the Government would be prepared to agree would not be materially adverse to the Company. In such case, this may result in an event of default under the Debenture held by CIC and CIC would have the right to declare the full principal and accrued interest owing thereunder immediately due and payable. Such an event of default under the Debenture or the Company's inability to pay the penalty could result in voluntary or involuntary proceedings involving the Company (including bankruptcy). However, with the Presiding Justice having upheld the decision to refuse to hear the case on appeal, this exhausts the legal appeals available to the Company in Mongolia.

21.2 Internal investigations

Commencing in September 2012, through its Audit Committee (comprised solely of independent directors), the Company has conducted an internal investigation into possible breaches of law, internal corporate policies and codes of conduct arising from the allegations which have been raised through the investigations in Mongolia. The former Chair of the Audit Committee of the Company, the Chair of the Audit Committee of Turquoise Hill and a representative of Rio Tinto have participated in a tripartite committee, which focused on the investigation of a number of those allegations, including possible violations of anti-corruption laws. The tripartite committee substantially completed the investigative phase of its activities during the third quarter of 2013. There have been no significant developments in respect of the internal investigations since the completion of the investigative phase during the third quarter of 2013.

The investigations referred to above could result in one or more Mongolian, Canadian, United States or other governmental or regulatory agencies taking civil or criminal action against the Company, its affiliates or its current or former employees. The likelihood or consequences of such an outcome are unclear at this time but could include financial or other penalties, which could be material, and which could have a material adverse effect on the Company, the outcome of which is unclear at this time but could have a material adverse effect on the Company”.

In the opinion of management of the Company, at September 30, 2015 a provision for this matter is not required.

21. CONTINGENCIES (CONTINUED)

21.3 Mongolian IAAC investigation

In the first quarter of 2013, the Company was subject to orders imposed by Mongolia's Independent Authority against Corruption (the "IAAC") which placed restrictions on certain of the Company's Mongolian assets. The orders were imposed on the Company in connection with the IAAC's investigation of the Company and were continued to be enforced by the Mongolian State Investigation Office (the "SIA"). The restrictions on the assets were reaffirmed in the Tax Verdict and form part of the Tax Penalty payable by the Company.

The orders relate to certain items of operating equipment and infrastructure and the Company's Mongolian bank accounts. The orders related to the operating equipment and infrastructure restricts the sale of these items; however, the orders do not restrict the use of these items in the Company's mining activities. The orders related to the Company's Mongolian bank accounts restrict the use of in-country funds. While the orders restrict the use of in-country funds pending outcome of the investigation, they are not expected to have any material impact on the Company's activities.

Following a review by the Company and its advisers, it is the Company's view that the orders placing restrictions on certain of the Company's Mongolian assets did not result in an event of default as defined under the terms of the CIC Convertible Debenture. However, the enforcement of the orders could ultimately result in an event of default of the Company's CIC Convertible Debenture, which if remains uncured for ten business days, would result in the principal amount owing and all accrued and unpaid interest will become immediately due and payable upon notice to the Company by CIC.

21.4 Class action lawsuit

On or about January 6, 2014, Siskinds LLP, a Canadian law firm, filed a proposed securities class action (the "Action") against the Company, certain of its former senior officers and current directors, and its former auditors, Deloitte LLP, in the Ontario Superior Court of Justice (the "Court") in relation to the Company's restatement of financial statements as previously disclosed in the Company's public filings.

For more details in respect of the class action lawsuit, refer to the Company's Management Discussion and Analysis for the quarter ended March 31, 2014 available on SEDAR at www.sedar.com, and, in particular, the sub-section on "Contingencies – Class Action Lawsuit" of the "Regulatory Issues and Contingencies".

To commence and proceed with the Action, the plaintiff was required to bring preliminary motions to seek leave to commence the Action under Securities Act (the "Leave Motion") and to certify the Action as a class proceeding (the "Certification Motion"). The Court rendered its decision on the Leave Motion on November 5, 2015.

The Court dismissed the plaintiff's Leave Motion as against each of the former senior officers and former and current directors of the Company named in the Action.

The Court granted the preliminary Leave Motion against the Company.

21. CONTINGENCIES (CONTINUED)

The Company disputes and is vigorously defending itself against these claims through independent Canadian litigation counsel retained by the Company and the other defendants for this purpose. Due to the inherent uncertainties of litigation, it is not possible to predict the final outcome of the Action or determine the amount of any potential losses, if any. However, the Company has judged a provision for this matter at September 30, 2015 is not required.

21.5 Toll wash plant agreement with Ejin Jinda

In 2011, the Company entered into an agreement with Ejin Jinda, a subsidiary of China Mongolia Coal Co. Ltd. to toll-wash coals from the Ovoot Tolgoi Mine. The agreement has a duration of five years from commencement of the contract and provides for an annual wet washing capacity of approximately 3.5 million tonnes of input coal.

In 2011, the Company made an initial payment of \$33,556 in respect of prepaid toll washing fees. The Company recorded a \$30,152 impairment loss on the \$33,556 of prepaid toll washing fees during the year ended December 31, 2013 and in the quarter ended June 30, 2014, the Company recorded an additional impairment of \$3,405 to fully impair the deposit. As at September 30, 2015 the Company has reassessed the carrying value of this prepayment and continues to believe it is appropriate for the balance to be fully impaired. This impairment continues to be recognized due to the continued delay in starting the commercial operations at the wet washing facility and the continued soft coal market in China.

Under the original agreement with Ejin Jinda, which required the commercial operation of the wet washing facility to commence on October 1, 2011, the additional fees payable by the Company under the wet washing contract would have been \$18,500. The Company assesses on a continuous basis the agreement with Ejin Jinda and has determined it is not probable that the \$18,500 will be required to be paid.

The Company's objective continues to be the implementation of an effective and profitable wet washing solution, and the Company is cooperating with Ejin Jinda in reviewing the utilization of the wet washing facility.

21.6 Special Needs Territory in Umnugobi

On February 13, 2015, the whole of the Soumber mining license and a portion of SGS' exploration license No.9443 X (the "License Areas") were included into a special protected area (to be further referred as Special Needs Territory "SNT") newly set up by the Umnugobi Aimag's Civil Representatives Khural (the "CRKh") to establish a strict regime on the protection of natural environment and prohibit mining activities in the territory of the SNT.

In March 2015, SGS filed a complaint with the 12th Court for Administrative Cases of First Instance (the "Administrative Court") seeking the annulment of CRKh's decision to the extent it impacted the License Areas. In parallel, SGS initiated negotiations with the CRKh in order to reach an acceptable solution.

21. CONTINGENCIES (CONTINUED)

On July 8, 2015, SGS and the Chairman of the CRKh, in his capacity as the respondent's representative, reached an agreement (the "Amicable Resolution Agreement") to exclude the License Areas from the territory of the SNT in full, subject to confirmation of the Amicable Resolution Agreement by the session of the CRKh. The parties formally submitted the Amicable Resolution Agreement to the appointed judge of the Administrative Court for her approval and requested a dismissal of the case in accordance with the Law of Mongolia on Administrative Court Procedure. On July 10, 2015, the judge issued her order approving the Amicable Resolution Agreement and dismissing the case, while reaffirming the obligation of CRKh to take necessary actions at its next session to exclude the License Areas from the SNT and register the new map of the SNT with the relevant authorities. The Company has not yet received any indication on the timing of the next session of the CRKh.

21.7 Commercial arbitration in Hong Kong

On June 24, 2015, First Concept Logistics Limited ("First Concept") served a notice of arbitration (the "Notice") on SGS in respect of a coal supply agreement dated May 19, 2014 as amended on June 27, 2014 (the "Coal Supply Agreement"). The arbitral proceedings (the "Arbitration") are deemed to have commenced on June 24, 2015, as the date when the respondent received the Notice.

According to the Notice, First Concept: alleged, *inter alia*, (i) that SGS had failed and/or wrongfully refused to sell any coal to First Concept; (ii) expressed its wish to have the dispute settled in an arbitration to be administered by the Hong Kong International Arbitration Centre; and (iii) sought the repayment of the prepayment, in the sum of \$11,500, it made to SGS under the Coal Supply Agreement, as well as any and all damages that may be due to it.

Under the Coal Supply Agreement, SGS agreed to sell coal to First Concept between May 22, 2014 and May 31, 2015 for a total consideration of \$11,500. It was also agreed that that First Concept would pre-pay the \$11,500. While First Concept fulfilled its payment obligation under the contract, it totally failed to fulfill its obligation to collect and transport the coal. Pursuant to the Coal Supply Agreement that obligation fell squarely on First Concept, while SGS was only obliged to make the coal available at its stockpile. The sole reason for the lack of coal sales to First Concept was the continued failure of First Concept to complete the necessary legal requirements for collection and transportation of coal and to provide a pickup schedule in accordance with industry practice. Contrary to the allegation by First Concept that SGS "wrongfully refused" to sell the coal, SGS has repeatedly advised First Concept of its willingness, ability and readiness to make available the coal for collection at its stockpile. In fact, SGS, at all times during the term of the Coal Supply Agreement, had more than sufficient coal at its stockpile to meet its obligations.

The Company, therefore, firmly rejects the allegations of First Concept in the Notice as lacking any merit. On October 26, 2015, the Company received the Statement of Claim from First Concept and will vigorously defend itself in the Arbitration, including claiming the relevant fees and damages from First Concept. The trial dates of the Arbitration are scheduled to be held in the fourth quarter of 2016.

There can be no assurance; however, that the Company will prevail in the Arbitration. Should SGS be unsuccessful in the Arbitration, the Company may not be able to re-pay the sum of \$11,500. In such case, this may result in an event of default under the Debenture held by CIC and CIC would have the right to declare the full principal and accrued interest owing thereunder immediately due and payable. Such an event of default under the Debenture or the Company's inability to re-pay the \$11,500 to First Concept could result in voluntary or involuntary proceedings involving the Company.

21. CONTINGENCIES (CONTINUED)

21.8 Notice of claim by former Chief Executive Officer

On June 30, 2015, the Company was served with a Notice of Civil Claim filed by the Company's former President and Chief Executive Officer, Alexander Molyneux, in the British Columbia Supreme Court. The claim relates to alleged breaches of Mr. Molyneux's employment agreement by the Company. In addition to the Company, Turquoise Hill, the Company's largest shareholder at the time of Mr. Molyneux's employment, was also named in the claim.

Mr. Molyneux acted as the Company's President (from April 2009) and Chief Executive Officer (from October 2009) until September 2012, when the Company terminated his employment.

Mr. Molyneux is seeking damages in excess of \$1,000 in his Notice of Claim. The Company considers the action is without merit. SouthGobi intends to vigorously defend the action and reserves its right to pursue all legal rights and remedies available to it in connection with the proceedings.

21.9 Tax legislation

Mongolian tax, currency and customs legislation is subject to varying interpretations, and changes, which can occur frequently. Management's interpretation of such legislation as applied to the transactions and activity of the Company may be challenged by the relevant authorities. The Mongolian tax authorities may be taking a more assertive position in their interpretation of the legislation and assessments, and it is possible that transactions and activities that have not been challenged in the past may be challenged by tax authorities. As a result, significant additional taxes, penalties and interest may be assessed. Fiscal periods remain open to review by the authorities in respect of taxes for five calendar years preceding the year of review. Under certain circumstances reviews may cover longer periods.

The Mongolian tax legislation does not provide definitive guidance in certain areas, specifically in areas such as Value-Added Tax, withholding tax, corporate income tax, personal income tax, transfer pricing and other areas. From time to time, the Company adopts interpretations of such uncertain areas that reduce the overall tax rate of the Company. As noted above, such tax positions may come under heightened scrutiny as a result of recent developments in administrative and court practices. The impact of any challenge by the tax authorities cannot be reliably estimated; however, it may be significant to the financial position and/or the overall operations of the entity.

Management believes that its interpretation of the relevant legislation is appropriate and the Company's positions related to tax and other legislation will be sustained. Management believes that tax and legal risks are remote at present. The management performs regular re-assessment of tax risk and its position may change in the future as a result of the change in conditions that cannot be anticipated with sufficient certainty at present.

As of September 30, 2015, management has assessed that recognition of a provision for uncertain tax position is not necessary.

22. SUBSEQUENT EVENT

Short-term Bridge loan

On October 27, 2015, the Company executed a \$10,000 bridge loan agreement with an independent Asian based private equity fund. The key commercial terms of the loan are as follows:

- \$5,300 and \$4,700 will mature on May 10, 2016 and July 30, 2016, respectively;
- Interest rate of 8% per annum and payable upon the repayment of loan principal; and
- Loan arrangement fee is charged at 4% of the loan principal drawn.

The Company drew down \$6,300 on October 30, 2015 and expects to draw down the remaining \$3,700 by mid November 2015.
